

Alstom presents its latest innovations in smart and sustainable mobility at Rail Live! 2022

- **Rail Live! 2022 takes place in Malaga between 29 November and 1 December.**
- **Alstom will participate in different panels and presentations on sustainability, digitalisation, passenger experience and inclusive mobility.**

28 November 2022 - Alstom, global leader in smart and sustainable mobility, participates in [Rail Live! 2022](#), held in Malaga on 29th, 30th November and 1st December. The company will be present in different presentations and meetings to showcase its commitment to sustainable, inclusive, safe, healthy, and efficient mobility.

"At Rail Live 2022, we want to share important aspects to lead innovation for more sustainable and smarter mobility. In our projects and in our strategy, it is key that the new products are increasingly greener and more efficient, safe, diverse, and committed to the operators and travellers' needs. We seek to promote the development of a liveable and viable society, mobility, and cities. This is our commitment," says Leopoldo Maestu, Alstom Managing Director for Spain and Portugal.

In this edition, Alstom will have experts from different areas of the company, including Leopoldo Maestu (President and CEO of Alstom in Spain and Portugal), Marco Antonio Camargo (expert in signalling and railway safety), Imma Lebrón (business development manager and expert in passenger experience) and Jaime Borrell (business development director and coordinator of universal mobility projects for Alstom in Spain).

Meeting point / Alstom stand - stand 7 - in front of the Spanish Symposium

Focusing on innovation, digitalisation and sustainability, Rail Live! 2022 will bring together in Malaga more than 250 specialists from over 40 countries, to discuss and address the challenges and opportunities in the railway sector, the investments planned to continue its implementation and its digital transformation. Rail Live! 2022 is supported by Mafex, the Spanish Railway Industry Association, in addition to the collaboration of the Ministry of Transport, Mobility and Urban Agenda, through Adif and Renfe; the Andalusian Regional Government, Malaga City Council, Malaga Metro, the Spanish Railway Foundation, the Spanish Railway

Technological Platform and ICEX. Other organisations such as UNIFE, EIM, Europe's Rail, In-move by Railgrup and Railway Innovation Hub are also participating.

With more than 3,000 employees, Alstom in Spain has a long industrial and technological history, including 4 industrial centres, 4 technology sites and a presence in more than twenty maintenance workshops. Among others, Alstom has an industrial plant in Barcelona dedicated to the manufacture of all types of rolling stock, a propulsion systems factory in Bizkaia, and in Madrid, different technological innovation centres for the development of programmes and projects in the fields of railway safety, signalling, maintenance and digital mobility.

About Alstom

Leading the transition to a decarbonised future, Alstom develops and markets mobility solutions that provide sustainable foundations for the future of transport. From high-speed trains, metros, monorails, trams, to turnkey systems, services, infrastructure, signalling and digital mobility, Alstom offers its customers the broadest portfolio in the industry. 150,000 vehicles in commercial service worldwide testify to Alstom's proven expertise in project management, innovation, design and technology. In 2021, and for the eleventh consecutive year, it was included in the Dow Jones Sustainability Indices, World and European. Present in 70 countries, Alstom employs more than 74,000 people. The Group had revenues of 15.5 billion euros for the financial year ending 31 March 2022. www.alstom.com
